

## PROTIME ELITE PRO TRANSPONDER

- Automatic driver identification
- 8 days of autonomy
- 3 h of charging time
- Automatic standby mode
- Speed < 500 km/h (310 mph)

### Description

The transponder Prottime Elite Pro is the most powerful and most accurate in our range. It includes the identification of the driver by using a radio frequency strap.

This transponder is delivered with a Lithium-ion battery or with a direct connection to the vehicle's battery.

When the transponder is in the charger, the standby mode is automatic, which offers an autonomy of several months. Only one charge per year is necessary to maintain the transponder in condition.

The transponder has a 8 days autonomy when it is continuously used. A tricolor LED indicates the level of charge and the autonomy.

The information on the level of charge is sent to the decoder when the transponder passes over the loop.

### Features

#### Lithium-ion battery :

- Autonomy : 8 days
- Charging time : 3 hours (without memory effect)

#### Specifications :

- Emission : magnetic induction
- Maximum speed : 500 km/h (310 mph)
- Maximum height of detection : 2,80 m (9 ft)
- Temperature range : - 20 °C to + 70 °C (-4 à 158 °F)
- Dimensions (with Lithium-ion battery) : 65 X 44 X 22 mm (2.6 x 1.7 x 0.9 in)
- Dimensions (with 12V Power) : 68 X 27 X 23 mm (2.7 x 1 x 0.9 in)
- Weight : 80 g (2.8 oz)

### 3 years warranty
